NVA 
Equine

Two decades ago, we made a commitment. It still stands today.

A longstanding industry leader, NVA has built a reputation for investing in the animal health care profession. And now, we are pleased to announce our commitment to the equine community as well. We're equipped to take on the challenges equine practices present as we partner with your team to help grow your business.

- Over 800 veterinary hospitals and pet resorts in the US, Canada, Australia and New Zealand.

Our veterinarians provide a full range of medical and surgical services, and our passionate, visionary local hospital leaders embody NVA's unique entrepreneurial spirit. We are building a thriving community united by our love of animals and the people who love them.

Selling your practice is a highly personal decision. We tailor the partnership to you, not the other way around.

Whether you want to stay fully involved in your equine practice, wind down your time in the office, or step away completely, you can choose the work-life balance that's right for you. We'll partner with you to make sure this transition is as seamless as possible. Only NVA can provide this degree of flexibility for equine practices.

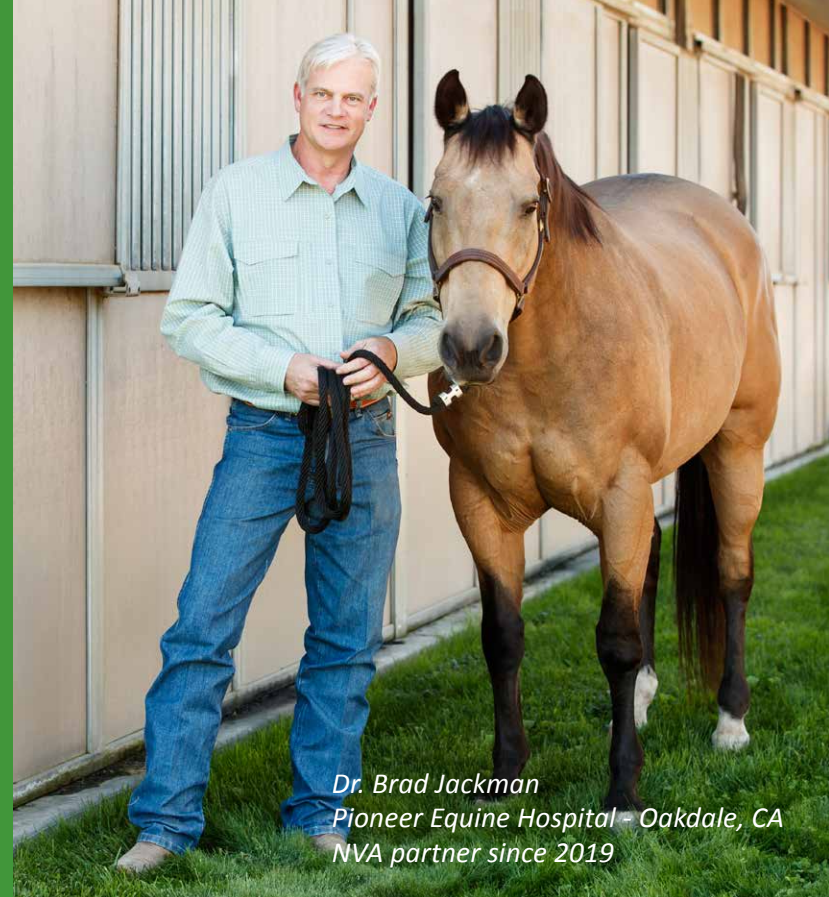

We have the experience and resources to tailor a strategy to meet your goals. We have the assets to make cash offers on every business with which we partner, with no financing contingency, and we close transactions quickly. When you join us, you have options for structuring your relationship including:

- **Selling 100% or staying onboard in a joint venture**
- **Providing the opportunity for your associates to buy in**
- **Selling your property or renting it to us**

Partners who have sold to us agree we've remained committed to their business. If you're interested in hearing about the experience of transitioning to NVA from one of our current partners, we would be happy to make an introduction.

Twenty-two
years of honoring
commitments
to sellers.
